

Prepare for the Unthinkable

Preparedness not only builds confidence, it saves lives.

Attend an American Red Cross earthquake and disaster presentation

This presentation will show you simple steps to take anywhere you live, learn, work and play to reduce injury, damage and financial loss.

Topics Include:

- Identifying local hazards
- Understanding the post-disaster environment
- How to stay safe during an earthquake
- What and how to plan
- Evacuation and disaster kit supplies
- Programs to support your planning and preparedness

Practicing preparedness will give you the ability to stay safe and remain calm while caring for your family in an emergency
